OnePlan

PRODUCT OVERVIEW

Work Planning Software

Stop forcing one-size-fits-all.

Connect teams. Keep all your tools. Work your way.

OnePlan connects work across your organization so every team can plan in the tools and methods they know best. Whether work happens in Microsoft Planner, Azure DevOps, Jira, Smartsheet, monday.com, or OnePlan itself, you'll gain a single, connected view of execution without disrupting how teams work today.

Instead of forcing a one-size-fits-all approach, let your teams work the way they want to while bringing visibility to the portfolio level.

> *"We allow teams to work in whatever platform they choose (Project, Planner, JIRA...) and integrate that data to OnePlan for consolidated visibility."*
>
> - Verified G2 Customer Review

Work Planning Key Benefits

Let teams work their way.

Support Agile, Waterfall, and hybrid delivery without forcing every team into the same process. Teams keep the workflows and tools they know, gaining better collaboration through OnePlan. Leadership finally gets one single view of the entire portfolio and projects.

Built for the Microsoft Ecosystem

OnePlan is built on the Microsoft Cloud, providing native integration with Microsoft 365, Dynamics 365, and Azure DevOps. Extend the tools your teams already rely on with enterprise work planning, governance, and portfolio visibility.

Ideal For:

- Project Managers
- Program Managers
- PMO Leaders
- Product Managers
- Scrum Masters
- IT Teams
- Engineering Teams
- Business Transformation Teams

Sofia AI for Work Planning

Sofia GPT can help you streamline your schedule and backlog management process. You can easily manage schedules, prioritize tasks, and collaborate with team members.

Example prompts for automating work:

"Create a work plan for our product launch."

"What's putting this project at risk?"

"Prioritize my sprint backlog."

"Summarize this week's progress."

"Show me what's due next."

"Who has capacity this month?"

"Update the schedule after this delay."

"Create tasks from these meeting notes."

"Find blocked tasks."

"Recommend the best timeline."
