Every Good Idea, in One Place, Ranked

One Front Door for Ideas and Requests
A single place to submit, store and find every idea and project request, instead of email threads, spreadsheets and hallway conversations.

Rank on Evidence, Not Volume
Process steps show where each idea sits in its evaluation, and a prioritization score ranks submissions against the criteria you define.

Crowdsource the Decision
Your people vote and comment on what has been submitted. Choose a simple vote or a one-to-five star rating, on whichever plan types you enable.

Reorganize an Idea into a Project
When an idea is approved, convert it into a project or an epic and carry straight on planning. Idea is a native OnePlan plan type, not a workaround.

Innovation Can Come From Anywhere. Make Sure You Hear It.

Capture the demand before it becomes a commitment.

1
Place for every idea and request

2
Simple vote or 5-star rating

↑
Visibility into your demand pipeline

> *To foster innovation, teams must be able to collect, vote and prioritize all new ideas or work requests.*

What You Gain

- Nothing worth doing gets lost in somebody's inbox.
- Every idea is scored against the same criteria and voted on by stakeholders, so priorities reflect evidence rather than influence.
- Leadership sees demand before it turns into commitments.
- Approved ideas move into delivery without re-keying anything.

IDEA TO IMPACT

How an Idea Becomes Funded Work

Submit	Collaborate	Prioritize	Deliver
• Ideas and requests • Your own fields • Any enabled plan type • One shared repository	• Vote or star rating • Comments and discussion • Favorites • Open to all users	• Process steps • Prioritization score • List, board, dashboard • What-if scenarios	• Reorganize to project or to an epic • Stage gate workflows • Portfolio reporting

An approved idea is converted into a Project or an Epic and planned in OnePlan.

Then Model It Before You Commit

Portfolio Modeler — What-If Scenario Analysis

Ranking tells you which ideas score highest. Modeling tells you which combination you can actually afford and staff. Portfolio Modeler collects, prioritizes and assesses every portfolio investment.

Build and compare what-if scenarios side by side. See the trade-offs in cost, timing and resource usage, rank by business driver, and rebalance capacity before anything is funded.

Answers the question every executive asks: are we investing in the right initiatives? · Available on the Enterprise plan.
