AI Credits, On Your Terms

One Pool, Your Rules

Buy 2,000 AI credits as a single pool and decide who draws from it. Assign users, set limits by group or individual, and remove access whenever needs change.

Top Up Ultimate Licenses

When teams outgrow the capped monthly credits in Ultimate Basic or Ultimate Enterprise, the bundle keeps them working without changing licenses.

Add AI to Any License

Customers on Basic or Enterprise licenses can buy the bundle on its own and bring AI credits to exactly the users who need them.

Track Every Credit

Monitor consumption and credits remaining as you go, so AI spend stays visible, predictable and easy to report to finance.

2,000 AI Credits. One Pool. Your Control.

A simple add-on: AI credits only, governed by you.

2,000
AI credits in every bundle

1
Shared pool for the users you assign

0
Credits for standard MCP actions

> *OnePlan administrators can set credit limits by group and individual user, allocating more credits to power users, managing consumption across departments, and adjusting limits as needs evolve.*

Who It's For

Ultimate License Customers
Users reaching the capped monthly credits in Ultimate Basic or Ultimate Enterprise keep working by drawing from the pool.

Basic and Enterprise Customers
Bring AI credits to the people who need them without changing anyone's license type.

Power Users and AI Pilots
Concentrate credits on analysts, PMO leads or a pilot team, then widen access as value is proven.

MAKE EVERY CREDIT COUNT

- ✓ Be specific and focused
- ✓ Limit the scope
- ✓ Keep responses concise
- ✓ Use MCP for common tasks
- ✓ Reuse conversation context

The Ultimate AI Bundle adds AI credits only and does not include licenses, product functionality, Premier Success or Advantage. Credit estimates are illustrative and vary by AI model, request complexity and data volume.
